

Object Oriented Programming LAB – BSDSF22

(Morning and Afternoon)

Lab 01 – 14-06-2023

Solution of Question 1 of the 1st Quiz is shared in this folder. Understand the problem and then its solution.

Task 1: Make the solution better, if possible, for you.

Task 2: Compute and display the unit vector of a vector.

Task 3: Compute and display the scalar multiple of a vector.

Task 4: Compute and display the cross product of the two vectors.

Task 5: Device a method to compare the two vectors for equality test.
